# Softhand uses Carmenta Server solution for tracking applications

Göteborg, February 28, 2008 – Carmenta has signed an agreement with Softhand for the supply of its Carmenta Server, used to build sophisticated mapping applications for the Internet and mobile devices. Softhand will be using Carmenta Server to provide and create tracking solutions.

“Carmenta provides a web map server with unique flexibility and with high performance. These key qualities allow us to provide our customers with advanced tracking solutions”, says Harry Håkansson, CEO of Softhand.

“Softhand provides mobile geospatial solutions to the public sector. They are an important partner and provide new and innovative geospatial solutions,” says Oskar Fajerson, Director of LBS at Carmenta.

The new solution is being launched in February 2008 and will be used as a hosted solution for a variety of different tracking solutions.
