Pilotfish Marine upgrades Carmenta Server with improved maps for tracking applications

Göteborg, April 16, 2008 – Carmenta has signed an agreement with Pilotfish Marine to upgrade Carmenta Server and to supply improved world maps, used to track marine vessels around the world, on the Internet.

"Carmenta provides a server with high flexibility, and has helped us to provide a map of the whole world, something which is required for our customers," says Jon Ullmark, CEO of Pilotfish Marine AB.

"Pilotfish Marine AB provides tracking services around the world for marine vessels. Carmenta is proud to be able to provide a world map that meets Pilotfish Marine AB's requirements," says Oskar Fajerson, Vice President of Sales at Carmenta.

The upgraded solution and new world map will be launched in April 2008.
